

Year 1/2 Home Learning w/c 22.06.20

The daily activities below are intended to provide you with ideas for working at home, there will also be reading activities available on ActiveLearn and Maths on MyMaths. Prodigy and Times Tables Rockstars are also still available for year 2 and Numbots will be available for year 1.

Theme: The Rainforest

Reading Activities		Spelling/phonics activities	
Mon	Create a sock puppet based on a favourite story character. Show your child how to use the puppet to retell the story the character appears in.	Mon	Can your child think of an animal or plant that begins with each letter of the alphabet. How many of these can be found in a rainforest?
Tue	Watch Eric Carle's Slowly, slowly, slowly, said the Sloth or Rumble in the Jungle . Once your child is familiar with the story, they can read along or join in with familiar sentences.	Tue	The tree frog, spider monkey and boa constrictor are just some of the animals that can be found living in a rainforest. Ask your child to list verbs (action words) to describe how each animal moves. How many can they think of?
Wed	Ask your child to go and read in a sunny spot in the garden. How did it make them feel reading outside?	Wed	Your child could visit this interactive game and play Forest Phonics .
Thu	Some of our everyday food comes from the rainforest. Your child can look in the kitchen cupboards and identify foods with the 'Rainforest Alliance' logo.	Thu	This game helps your child to practise the 'tricky' words for their year group in a fun, interactive way.
Fri	Help your child to look through cookery books for a recipe involving chocolate. Ask them to use decoding skills to read some of the ingredients. They can learn about where chocolate derives here .	Fri	The word 'rain' contains the sound 'ai'. Ask your child to list as many words as they can containing the 'ai' sound. Your child might identify words that contain an alternative spelling for 'ai' such as ay/a-e .

Writing activities		Maths Activities	
Mon	Your child could start a nature diary. At the same time each day, they could record the animals that they can see in the garden or from their window and describe the weather and plants. What differences do they notice over the week? Or a month?	Mon	Cut pieces of paper into different shapes or food that can be sliced, then work with your child to find half by cutting or drawing on the shapes or by slicing the food. Make sure both sides are equal and if they aren't, talk about why it is not half. Repeat for finding a quarter.
Tue	Can your child create a fact file about a spider monkey or a tree frog? Describe the animal's appearance, habitat, diet and any other facts.	Tue	Ask your child to watch these videos and complete the activities about what a fraction is and how a fraction should be written.
Wed	Your child could write a short description of the rainforest. Ask them to think about what they can see, hear, feel and smell. This live stream may help.	Wed	Get a chocolate bar and work with your child on how it could be split into half, quarters and thirds. You could investigate whether the size of the chocolate bar affects how much they get. Does $\frac{1}{2}$ always look the same?

Thu	Many trees in the rainforest are chopped down to use for paper. Ask your child to create a poster about saving and reusing paper at home.	Thu	Your child could estimate and count the number of different plant types or insects that they can see/find in the garden. Record in a table.
Fri	Visit the Literacy Shed for this wonderful resource on Caterpillar Shoes . Or, write an acrostic poem about a rainforest creature.	Fri	Select an even number of some of your children's toys (e.g. toy cars, marbles). Work with your child on splitting the total amount in half by sharing out into 2 piles. Repeat this to find a quarter but share the amount into four piles.

The following activities are based on this week's theme. Please feel free to access as many or as few of these as you can manage.

Topic activities

The project this week aims to provide opportunities for your child to learn more about the world's rainforests. Learning may focus on the plants, animals and insects that inhabit the rainforest, food that originates there and weather patterns. It could look at plants and animals that can be found in the garden too.

- **Fascinating Forest Floor-** Can your child create their own replica forest floor? Task them with collecting materials from the garden or during your daily exercise. Why not share a photograph of your child's creations online using [#TheLearningProjects](#).
- **The Sounds of the Rainforests-** There are many wonderful and intriguing sounds that can be heard in the rainforest. You can listen and watch real footage from a rainforest [here](#) or watch [this BBC Our Planet clip](#). Which animal makes the most noise in the rainforest?. Ask your child to record what sounds they can hear and to predict what animals the sounds have come from. Can your child replicate these sounds using objects from around the home?
- **The Big Garden Tidy Up-** Why not work together as a family and have a Big Garden Tidy Up? Task your child with pulling out weeds, raking up the leaves or just having a general tidy. Take before and after photographs.
- **Sketch a Spider Monkey or a Tree Frog-** Can your child create a detailed sketch of an animal that inhabits the rainforest? Using pencils, crayons or whatever else you have, ask your child to copy an image of a rainforest animal, thinking carefully about the patterns and tones.
